April 26, 2016

Heat Biologics to Present at PIONEERS 2016, Presented by Joseph Gunnar & Co.

DURHAM, N.C., April 26, 2016 (GLOBE NEWSWIRE) -- Heat Biologics, Inc. ("Heat") (Nasdaq:HTBX), an immuno-oncology company developing novel therapies that activate a patient's immune system against cancer, announced that the company is scheduled to present at PIONEERS 2016, presented by Joseph Gunnar & Co., on Thursday, May 5, 2016 at 4:00 p.m. Eastern Time.

The link to the live audio webcast and replay of the presentation may be accessed on Heat's corporate website at http://ir.heatbio.com/events-presentations. The webcast will be archived on the company's website for a period of three months.

About Heat Biologics, Inc.

Heat Biologics, Inc. (Nasdaq:HTBX) is an immuno-oncology company developing novel therapies that activate a patient's immune system against cancer. Heat's highly specific T cell-stimulating platform technologies, *ImPACT* and *ComPACT*, form the basis of its product candidates. These platforms, in combination with other therapies, such as checkpoint inhibitors, are designed to address three distinct but synergistic mechanisms of action: robust activation of CD8+ "killer" T cells (one of the human immune system's most potent weapons against cancer); reversal of tumor-induced immune suppression; and T cell co-stimulation to further enhance patients' immune response. Currently, Heat is conducting a Phase 2 trial with its HS-410 (vesigenurtacel-L) in patients with non-muscle invasive bladder cancer (NMIBC) and a Phase 1b trial with its HS-110 (viagenpumatucel-L) in combination with an anti-PD-1 checkpoint inhibitor to treat patients with non-small cell lung cancer (NSCLC).
